2014 MICHIGAN NONPROFIT COMPENSATION & BENEFITS REPORT RELEASED*Report Provides Current Information to Nonprofit Leaders*

LANSING, Mich. – The 2014 Michigan Nonprofit Compensation & Benefits Report was released today by Michigan Nonprofit Association (MNA). The report provides data on salaries and benefits for 76 of the most common positions by region, organization type, and budget size.

The survey of nearly 400 Michigan nonprofits was commissioned by MNA and conducted by the Community Research Institute at Grand Valley State University's Johnson Center for Philanthropy.

“One of the largest expenditures for nonprofit organizations is salary and benefits. Appropriate compensation packages are critical to staying competitive when recruiting and retaining quality talent,” said MNA Director of Stakeholder Engagement Bill Gesaman. “The 2014 Compensation & Benefits Report provides the information directly from our sector in Michigan.”

Because of MNA's commitment to promoting diversity and inclusion within the nonprofit sector, this year's report takes a more intentional look at these areas.

Current practices, such as health coverage for domestic partners and compensation relative to gender, are two examples that are highlighted in this report. More than 50 percent of respondents said they have a formal diversity and inclusion policy.

To purchase the report, visit www.mnaonline.org/2014compensationreport.aspx.

About MNA

MNA, incorporated in 1990, is a statewide membership organization dedicated to serving the diverse nonprofit sector through civic engagement, capacity building, data and technology, training, and advocacy. MNA manages multiple programs and affiliates, including Data Driven Detroit, Highway T, The LEAGUE Michigan, Michigan Campus Compact, Volunteer Centers of Michigan, AmeriCorps Michigan, and the state AmeriCorps VISTA program.
